## ILLINOIS MINE OPERATORS WILL PAY HIGH SCALE

### VIEWPOINT OF OWNERS GIVEN TO EMPLOYEES

Conference Adjourned  
Until Tuesday Of  
Next Week

Chicago, March 11.—(AP)—Illinois coal operators told union miners today "they are willing to pay the highest scale of wages the miners officials can prove that the operators are able to pay and still sell their coal at a reasonable profit."

This statement, closing the conference called to draw up a new wage contract, was contained in an 18-page pamphlet: "An appeal to reason," which set out the operators' viewpoints.

The conference was adjourned to-day until next Tuesday. At that time, the union officials will be made to rush the actual work of drawing up a new wage scale to sub-committees.

**Want 6 Hour Day.**  
The present contract expires March 31 and the miners are asking, among other things, for a six-hour day, five day week and an increase in the basic pay to raise the minimum from \$5.95 daily to \$7.

Both groups have spent the four days in discussing the serious economic plight of the coal industry in Illinois. The delay was allowed to give the miners an opportunity to state the operators' viewpoints back to their sub-districts.

As of yet, there has been no actual discussion on wages.

In "an appeal to reason," the operators said:

"The exploitation of the present wage contract marks the greatest crisis in the history of the Illinois coal industry. In an effort to stem the tide of eastern coal, operators have paid all other costs but labor to the bone. They have been forced to additional mechanical devices to hold what they call of their vanishing business. They have even been forced to secure eastern coal, in many cases, for their customers to sell in order that the sales charges charged to Illinois coal might be lower."

**Lower Costs.**  
"The only remaining chance is to lower the labor cost so Illinois coal can be offered at prices which consumers are willing to pay. There is no other choice."

Both the operators and miners have expressed beliefs that an agreement might be reached without stoppage of work. This, they have pointed out, would be disastrous.

"Already," said the operators' statement, "salesmen from competing districts are soliciting business from the present buyers of Illinois coal on the basis of the cost differential."

In it, the operators pointed out that Illinois fields have been unexploited since 1898; that the operators "have been loyal to the union and stand bound to the highest scale of wages paid for the mining of any coal," and "have lowered the minimum wage of \$5.95 in Illinois to \$2.80 in Harlan county, Kentucky, to \$2.60 to \$2.80 in West Virginia, and \$3.20 in Pennsylvania."

As a parting word, the statement said the invasion of eastern coal, mined at lower wages, has forced a shutdown of 200 mines in Illinois since 1923, reducing the numbers of union miners employed from 99,000 in 1923 to 49,000 in 1931.

### WANTS DIVORCE

Boone, Iowa, March 11.—(AP)—At the age of 30, Phila Hitchcock of Boone was divorced last September. In October he re-married.

Now he sues Mrs. Lina Hitchcock of Schuyler, Neb., his second wife, for divorce on the grounds that she nags him.

### WEATHER

For Jacksonville and vicinity — The weather for this territory will be generally unsettled today, followed by mostly fair weather Sunday. This was the forecast issued by the weather bureau last night. There will be little change in temperature the observer claims.

The Norbury Sanitarium Weather Bureau report last night gave temperatures as follows: high 23; current 23 and low 9. Barometer readings were: a. m. 30.55; p. m. 30.50.

Illinois—Mostly unsettled Saturday; Sunday generally fair; little change in temperature.

Missouri—Unsettled Saturday; Sunday generally fair in north, mostly cloudy in south portion; not much change in temperature.

Iowa—Somewhat unsettled Saturday; Sunday generally fair and not quite so cold in extreme west portion.

## SAILORS SAFE AFTER BATTLE WITH STORMS

### Sea-Faring Men Are Bound For Safe Ports

(By the Associated Press)  
Out of reach of raging seas, scores of sailing ships, yesterday were bound for safe ports as icy winds warmed and a belated winter abated. It left on hand, however, the coldest weather the Rocky mountain region had experienced in two years. A temperature of 31 below zero was recorded at Denver, Colo., yesterday. Sub-zero readings were the most prolonged for this late season in 32 years.

Richard Dupont and a party of friends cruising down the Atlantic coast were taken aboard an army transport from the yacht Nahama. Friends had expressed fear for their safety.

**Men Missing**  
Twelve men aboard the patrol boat CG-218 and the barge Deepwater were still being sought. The CG-218 was last seen Sunday and a half a dozen cutters have been sent to search for them.

Another hundred of the 700 fishermen marooned on an ice floe in the Gulf of Finland were rescued, leaving some 300 men still in danger. The 100 horses marooned with them were reported suffering badly from the cold.

The 34 members of the crew of the Collier H. P. DeBardeleben were aboard the freighter Laganbank bound for Boston. They risked a long chase to reach the half-ton vessel through the raging seas just a few hours before the DeBardeleben sank, a victim to four days of incessant pounding.

**Release Dredge**  
Five government engineers, anxious to proceed seaward, were taken from the government dredge Taylor, around off Put-In-Bay in Lake Erie only a few hours before the tug Florida and Indiana from Toledo released the Taylor, which had forty men aboard.

The freighter Fellowship drifted in the ice floe nine miles out from Windsor, Ont. An airplane which dropped food and provisions to the 20 members of the crew received a signal that all were well aboard.

Two lads were on their way to assist the German freighter Harburg, which was stuck in the ice. The Harburg has a damaged steering gear.

A coast guard cutter took a Red Cross representative with provisions and medical supplies to Rodanite, a small fishing vessel in South Carolina, where 20 families were reported deserted. The families had been rescued, 5 badly damaged and nine swept from their foundations.

Heavy snow in northern Mexico disturbed railroad traffic somewhat. Snow fell in Louisiana, Arkansas and Texas, New Orleans freezing the white flume for the first time in years.

Three men were frozen to death in a city park at Clarksburg, W. Va.

## EXCITEMENT OVER GERMAN CAMPAIGN MOUNTING, CLAIM

Largest Election Turnout in  
History of Germany  
Anticipated

Berlin, March 11.—(AP)—Campaign excitement mounted to a high pitch throughout Germany tonight as the four-cornered presidential race entered the last lap in a variable storm of propaganda.

The largest election turnout in the history of Germany was anticipated by observers as they watched one giant rally follow another in the big cities and saw proportionately large and exciting meetings in the remotest hamlets.

Tonight President Paul von Hindenburg was the subject of an impassioned rally led by the aged field marshal's right-hand man—Chancellor Heinrich Brüning.

The campaign was a fiasco of contrasts. The four candidates represented different types of men as do their programs represent sharp and widely varied differences in creed.

The president himself was put in the race on a non-partisan basis by a petition signed by 3,000,000 Germans. He represents the slow, patient "Queen of the Skies."

Adolf Hitler, the dapper, slim Fascist leader, marches before his legion, with a banner emblazoned with the policy of "Nationalism" and a heavy handed militaristic creed against all enemies of "Germany for Germans."

Ernst Thälmann, erstwhile doctor, worker bears the banner of Communism, and has support among the great masses of the industrial population. His is the rough-and-tumble speech of the worker.

Col. Theodore Duesterberg, represents the German military, and promises to establish their fatherland as a great military nation again. He is the candidate of the Steel Helmets, the war veterans association.

**START CAMPAIGN**  
Evanston, Ill., March 11.—(AP)—A campaign was started tonight to obtain funds from alumni to enable 200 needy students at Northwestern university to continue their classes.

All of the students in question may be forced to leave the university, it was announced, unless outside financial aid is obtained. Depleted family finances and inability to obtain part-time work were given as reasons for the need.

The campaign for funds will be directed by the Northwestern university foundation and the Northwestern University Club of Chicago.

## President Hoover Appears Satisfied With Result Of Anti-Hoarding "Campaign"

### Milkman Plays Jokes on Wife, Court Learns

Chicago, March 11.—(AP)—All the practical jokes that Jesse Pugh, a milkman, played on his wife came home to him today in circuit court. She got a divorce.

One of the things that his wife, Martha, 33, charged was that he often left on his milk route at 4 a. m. only to return 34 hours later, thrust his head in her bedroom window, and shout "boo!"

And another thing, she testified, he ducked her so hard last Halloween eve while she was bobbing for apples in a washtub that she broke three teeth.

Pugh said he couldn't afford to pay alimony so the court awarded his 12 children to Mrs. Pugh.

## COMMERCE BODY FAVORS CHANGE IN DRY LAWS

Would Allow Beer To  
Be Manufactured  
And Sold

Chicago, March 11.—(AP)—The Chicago Association of Commerce went on record today through its executive committee as favoring a revision of the Volstead act to allow beer containing two and three-quarters per cent of alcohol.

The committee's vote was unanimous after a protracted session and came on a resolution requesting congress to enact laws "at the earliest opportunity" to "legalize the manufacture, sale and transportation of malt beverages containing not more than two and three-quarters per cent of alcohol by weight."

Today's action was the first officially taken by the association or its executive committee on the prohibition question. George W. Rosseter, recently was elected president to succeed Col. Robert L. Shamm Randolph, who also is head of the "Secret Six" of the beer and wine revision stand.

The Association of Commerce claims a membership of 6,500 business and industrial firms in Chicago and announced it would appeal to other organizations belonging to the Chamber of Commerce of the United States to support its Volstead revision stand.

In its resolution approved today, the executive committee said: "It is a matter of common knowledge and official record through the report of the Wickersham commission that the 18th amendment and the prohibition enforcement act are being violated daily and hourly through the union and the violation of these laws are causing disrespect for all laws and a complete breakdown of public and private morals and are particularly harmful to the youth of our land."

"It is a demonstrable fact that liquors containing not more than two and three-quarters per cent of alcohol by volume are not intoxicating in fact and that their manufacture and sale is therefore, not in violation of the 18th amendment."

"The record of the 13 consecutive years of attempts at enforcement of the prohibition act is sufficient evidence that it can not be enforced in its present terms."

"We, therefore, recommend that the congress of the United States at the earliest opportunity enact laws to legalize the manufacture, sale and transportation of malt beverages containing not more than two and three-quarters per cent of alcohol by weight and non-intoxicating in fact and providing for a substantial revenue tax to be collected from the manufacture and sales of such beverages."

## AIRSHIP AKRON IS QUITE ALL RIGHT COMMITTEE FINDS

Claim "Queen of the Skies" is  
Well Worthy of Her  
Title

Washington, March 11.—(AP)—So far as the house naval committee is concerned, the airship Akron is quite all right and well worthy of her title, "Queen of the Skies."

After months of debate as to whether the airship was a monument to American genius or inefficiency, the committee today ended its share in the controversy by finding:

"If there was any poor workmanship or faulty material used in the construction of the Akron, the same was corrected before the ship was completed."

This statement was based on testimony obtained in a lengthy hearing on charges that besides carrying under-way material used in the construction of the Akron, the same was a victim of sabotage and was overweight.

The report also said that "no direct testimony was presented by any person who had first-hand information relative to the charges of sabotage."

"Other than by representatives of the United States navy."

But, basing its conclusion on that testimony, the committee called attention to a statement by Dr. Hugo Eckener of Graf Zeppelin fame praising "this masterpiece of American engineering and craftsmanship."

## TAX BILL IS CONSIDERED BY HOUSE

Number Of Subjects  
Are Discussed By  
Senators

Washington, March 11.—(AP)—With few interruptions, the house spent the day on the tax bill but the senate found time to consider a number of subjects along with the interior department measure.

It passed a bill to prevent boats from going out to vessels selling liquor beyond the three mile limit and agreed to a house resolution for an investigation of the feasibility of the six hour day for railroad workers.

It refused, however, to vote on the \$122,500,000 road construction measure, already passed by the house, and the bill which would give the president the power to reorganize government departments.

It also sent the measure for a slash in farm board salaries back to a committee.

In one of the few house asides, Representative Stovich (D. N. Y.) lambasted hysterical dramatic critics on the floor of the house, repeating sentiments he had expressed in committee.

All the discussion of the tax bill was not on the floor. Outside, Representative Snell (R. N. Y.), the Republican leader, predicted passage of the \$1,096,000,000 measure and that the president would sign it.

In the house agriculture committee room, commission merchants continued their attacks upon the farm board. Among those who said its influence was bad were W. A. Moody, president of the St. Louis live stock exchange and A. H. Baker, commission merchant of St. Joseph, Mo.

The bill sponsored by Representative Pollock (R. Wis.) for the issuance of \$5,500,000 in bonds for emergency construction work was approved in principle by a succession of witnesses, among them John A. Simpson, president of the national farmers union.

The house naval committee apparently ended a lengthy controversy by deciding there was no poor workmanship or faulty material in the airship Akron.

Other committees considered the silver problem; the bill to allow the award of mail contracts to airships and a measure to declare a moratorium on reclamation project payments.

In the house representative swing (R. Calif.) threatened to prefer "charges" against William H. Ellison, collector of customs at San Diego, and William H. Ellison, collector of customs at San Diego, for having turned a stop to what he termed illegal entries at night from Mexico.

Senator White (R. Me.) opposed in the senate the radio bill, already passed by the house, which would prohibit licenses to companies in which foreign interests were represented. He said it would tend toward a monopoly in radio.

## GREAT BRITAIN MAY RETURN TO GOLD STANDARD

Chancellor Sees Little Possibility of U. S. Making  
Change

London, March 11.—(AP)—The house of commons was told today by Neville Chamberlain, chancellor of the exchequer, that he sees no possibility of the United States dropping the gold standard and that Great Britain probably will return to it.

Mr. Chamberlain's attitude was voiced in reply to Sir Herbert Samuel, the home secretary, who saw a possibility of dollar inflation and a "Niagara of unwanted gold" in England. Sir Herbert said this might force Great Britain back on the gold standard against her will.

At the conclusion of the debate, however, the gold standard bill extending suspension for another year was passed without a division on second reading.

The chancellor defended the present monetary policy of the United States.

"Financial measures which they have taken there were wisely conceived and may perhaps prove beneficial not only to that great country but to the whole world."

## BANK ROBBER SENTENCED TO PENITENTIARY

Guy Sinclair Charged With  
Robbery of Flat Rock,  
Illinois Bank

Robinson, Ill., Mar. 11.—(AP)—Guy Sinclair, 31, was convicted today on a charge of robbery with a gun and immediately was sentenced to the Southern Illinois state penitentiary at Chester. Sinclair was identified by four persons as one of three men who recently robbed a Flat Rock, Ill., bank.

Sinclair chose to stand trial although his two accomplices in the robbery, Grover Griffith, 52, of South Bend, Ind., and Clifford Hazen, 40, pleaded guilty several days ago. Sinclair's home was in South Bend and Hazen came from California.

Sinclair pleaded that he was a "victim of circumstances" when arrested and that the other two men, after robbing the bank, had picked him up in their car and forced him to drive towards Vincennes, Ind. The others robbed him, he said, shortly before all were arrested in Vincennes.

## POLICE APPEAL FOR AID IN THE FAMOUS KIDNAPING CASE

Barking Mystery  
in Detroit, Mich.,  
Has Been Solved

Detroit, March 11.—(AP)—The mystery of frenzied suburban barking heard in the vicinity of Lindsay avenue was no longer a mystery today, and as a result of two wet, hungry and bedraggled dogs had a new friend in Stanley Doner.

The underground barking reached the ears of residents of the neighborhood Monday night. A woman solved the mystery—two dogs, a big German shepherd and a little mongrel imprisoned in a sewer.

Neighbors tried to effect a rescue and failed. Then Doner, aided by Frank Watson, went into the sewer armed with a net. After half an hour's absence, he reappeared with a manhole with two dripping, tired, grateful dogs. The big shepherd had worn the hair off his back running up and down the sewer. The little mongrel was half-drowned.

A sly rabbit, said Doner, apparently led the dogs to their downfall, by leaping across the culvert which opened into the sewer, the pursuing animals dropping through the opening.

All the discussion of the tax bill was not on the floor. Outside, Representative Snell (R. N. Y.), the Republican leader, predicted passage of the \$1,096,000,000 measure and that the president would sign it.

In the house agriculture committee room, commission merchants continued their attacks upon the farm board. Among those who said its influence was bad were W. A. Moody, president of the St. Louis live stock exchange and A. H. Baker, commission merchant of St. Joseph, Mo.

## PUBLIC WORKS BILL APPROVED BY FARM UNION

Measure Is Introduced  
By LaFollette Of  
Wisconsin

Washington, March 11.—(AP)—A \$5,500,000,000 program of public works proposed by Senator LaFollette (R. Wis.), was endorsed before a senate labor subcommittee today by the National Farmers' Union.

In the senate chamber itself work was begun on the \$122,500,000 emergency highway construction bill passed by the Democratic house. It was forced onto the calendar, however, after brief debate.

John A. Simpson, president of the Farmers' Union, sharply arraigned congress on the ground it has been in session for months and has failed to alleviate the unemployment situation.

"A million more men are out of employment than when you convened," he asserted.

"What have you done here in this session of congress is just as foolish as for a doctor to pour oil on the head of a man who has sore feet."

Simpson urged that the emergency bond issue be non-interest bearing. Other witnesses, all of whom favored the public works plan in general were New Yorkers—F. E. Schmitt, editor of the Engineering News-Record; John Sloan, architect; Malcolm Pirnie, consultant; and Willard Chevalier of the McGraw-Hill Publishing company, and Arthur E. Gayer, lecturer on economics at Columbia University.

The Democratic highway construction plan failed of action in the senate because of a rule change consideration at 2 p. m. but before that time several senate roads committee amendments adding \$3,500,000 to it were approved.

Its passage was urged by Senator Odell of Nevada, chairman of the committee, who said it would provide work directly or indirectly for 690,000 men.

Offering an amendment to provide for allocation of the funds to states on the basis of population rather than area and roadway needs, Senator Brigham (R. Conn.) contended that otherwise the employment relief would not be provided where it is needed most.

## WILL WELCOME INFORMATION OF ANY KIND

Communications Will  
Be Treated With  
Confidence

By Francis A. Jamieson  
Associated Press Staff Writer  
Hopedwell, N. J., Mar. 11.—(AP)—A police appeal for information "regardless of the source," to be treated with strict confidence, was broadcast to-night coincident with widespread underworld activity in the search for the kidnapped Lindbergh baby and a mysterious incident in Tombs prison, New York.

The wholesale bid for cooperation from all sources was the first of its kind made by state police officials since the famous flier's son was stolen from his sick bed a week ago last Tuesday night.

"In our earnest desire to accomplish the recovery of the baby," it said, "police will welcome information of any kind leading to its return, regardless of the source."

The identity of all people disclosing information was being kept to the recovery of the baby, whether the information is valuable or not, will be treated with confidence."

Circulars making this plea are being distributed to all police departments in the United States, officials said. They are being printed in Washington, Lieutenants White and Coulton of the state police said, but it was not known whether they had been sent by some federal government agency.

**View Suspect**  
A man described as a possible suspect in the case was being held in Tombs prison last night by Morris Rosner, acting as a personal representative of Colonel Lindbergh and then, according to reliable information, was brought to Hopewell early today.

Rosner has been a mysterious figure in the case. He was being described by newspapers as a man with widespread underworld connections, who has been frequently at the Lindbergh home since the kidnapping, but beyond this little is known about him.

Officials of the department of correction said they had no statement about the Tombs angle of the case "might kill the effectiveness of our work."

The department commission, Richard C. Patterson, Jr., said the report might release 50 prisoners if it would not be taken back, but remember, I'm not admitting that we did take out a prisoner."

Max Silverman, bondsman, said in Newark tonight he had been commissioned to take to Chicago tomorrow "more than \$200,000" in bonds to cover the case of the mass of Capone. He said he would go to see the man described himself as the bondsman who posted \$100,000 bail for Capone when the Chicago gang leader was arrested in 1929 on an income tax charge.

Rosner said Oswald Madden, reputed racketeer, who is in Tombs, had been giving his time and attention to the child hunt since last Thursday.

Madden's name was thrust into the case late in the day when it became known a representative of Col. Lindbergh had said he was in Tombs prison in New York last night and the prisoner subsequently was taken to Hopewell. Commissioner of correction Richard C. Patterson, Jr., refused to answer when asked if Madden had been the colonel's representative in the case. He also was carefully guarded and Patterson withheld further details.

Meantime, a revision of the scene in the Lindbergh home when the kidnapping was discovered, which was obtained from an authoritative source, brought into bold relief the positively few uncontroverted facts about the case.

At 10 o'clock on the night of the kidnapping Mrs. Lindbergh was on the same floor as the nursery—in the bathroom, preparing to take a bath before retiring. Her husband was on the first floor at his desk.

Betty Gow, the nursemaid, went to the nursery and discovered the child was missing. She asked Mrs. Lindbergh if she had taken her son.

"I guess the colonel must have taken him downstairs," the mother said.

There was no consternation at first, but when Miss Gow found the baby was not with his father she screamed that the child had been kidnapped.

## CORONER'S JURY FINDS SALESMAN TOOK OWN LIFE

Testimony Given That Man  
Deliberately Drove Car  
Thru Barricade

Chicago, March 11.—(AP)—A coroner's jury decided today that R. T. French, 26, a salesman, had killed himself by smashing a heavy barricade with his car and plunging 35 feet off the end of Lake Shore drive today after a long illness.

The cause of his death was a paralytic stroke and heart attack which he suffered only a short time after retiring from active study. He was 66 years old.

Private funeral services will be held Sunday afternoon at a funeral home here. Honorary pall bearers will be Dr. David Kinley, president emeritus of the university, Dean A. H. Daniels, Thomas Arkle Clark, H. S. Capron, Henry E. Wilson, Prof. A. H. Lyberty, Prof. J. W. Garner and Prof. W. A. Noyes.

Dr. Harry Woodburn Chase, president of the university, said, "He was an uncompromising opponent of anything in education that savored of low standard and incompetent work. He was one of the foremost men who helped to make and shape the development of the University of Illinois."

Dr. Babcock was president of the University of Arizona from 1903 to 1910 and also the faculties of the University of Minnesota and California. He was unmarried.

## WHEAT ACREAGE

Washington, March 11.—(AP)—The agricultural experts here said today its latest grain reviews there was little change in the total acreage of winter sowings of wheat and rye in leading producing countries as compared with a year ago.

In 15 countries which have reported, winter wheat and rye have a year ago as estimated at 138,551,000 acres against 142,272,000 in 1931.

## A Clear Path Ahead

Morgan county commissioners were  
given a clear indication of wishes of  
citizens in regard to Route 104 at the  
mass meeting held here Friday. Their  
next move is to go to Springfield and  
confer with Col. Sheets with a view  
to finding out what changes in the  
route he will be willing to make.  
Then the commissioners are to accept  
whatever changes they can get and  
proceed to secure the right of way  
for the road, so that it can be built  
this year.

Many of the citizens in their talks  
stressed the fact that they want the  
road. They are tired of being iso-  
lated from their markets and shop-  
ping centers; they want the conven-  
iences of modern travel, which they  
see all about them. They believe the  
road can be built at a time when it  
will afford needed employment to  
numerous Morgan county men who  
are at present out of work.

The man who by force of economic  
or other circumstances must do with-  
out a car in this day is indeed hand-  
icapped. Train service is practically  
nil, and if he travels at all, it must  
be thru the kindness of friends or at  
unusual expense and inconvenience.

But the fact that Morgan county has  
no hard road on which to drive it,  
is almost as hard put to it as the  
man who has no car at all. He is  
isolated in winter, and every rain  
hampers his goings and comings.

Dust is also his portion when the  
summer grows hot and dry. He is  
on a dirt road, and everybody takes  
that into account in dealing with him.

Farmers are realizing this situation  
more and more each year, and as they  
do so, the hard roads grow in popu-  
larity. The southeastern portion of  
this county needs a hard road con-  
nection with the county seat. That  
was evident in the meeting yesterday.

The vote of citizens gave the com-  
missioners a clear path ahead, and  
there is now no reason why Route  
104 should not be completed during  
the coming summer.

## Our Helpless Cities

The coastal cities of the United  
States are today practically defense-  
less against attack by air or sea. We  
have only 5,300 coast artillery soldiers  
to protect our thousands of miles of  
coast line. A hostile fleet could sail  
at will into our large bays and har-  
bors and up our larger rivers.

Paris, Rome and Tokyo  
have excellent systems of aircraft de-  
fense, but we have none. If our  
great seaboard cities were attacked,  
the vast population would be driven  
inland, creating congestion and great  
suffering, which we would be power-  
less to prevent.

Our national capital is also vulner-  
able. During the War of 1812 British  
soldiers captured and burned the  
capital city. Then there was some  
excuse for such a situation, because  
the country was small and the capital  
was centrally located. Today it is  
not, and once an invading army  
captured our Atlantic coast cities, it  
would be easy enough to strike Wash-  
ington.

Today in the entire United States  
we have only 33,000 infantrymen  
ready for instant service, and only  
8,000 cavalry, not enough to quell any  
organized uprising of any consequence  
within our own borders, to say nothing  
of opposing a foreign foe.

We have only 204 light and 64 heavy  
field guns ready for use. It is high  
time America awoke to her own  
pitiful unpreparedness in a world  
which has no idea of disarmament.

## WILL ROGERS says:

To the Editor of The  
Journal-Courier

Beverly Hills, Cal., March 11.—The  
poor old disarmament conference at  
Geneva, it's just dropped plum out of  
papers.

It just shows you how we can get  
all excited about something, and  
think that life and death depend on  
it, and in six weeks nobody can re-  
member it.

Those poor delegates, they were  
fairly well known a month ago, now  
their own folks don't know where to  
send them mail. I am going to ask  
for contributions for funds to build a  
home for delegates who have been  
sent off to conferences and forgotten.

Yours,  
WILL ROGERS.

P. S.—What a wise guy that Char-  
ley Dawes was to escape that burial  
alive.

## PUT OUT ROOF FIRE

The fire department made a run  
during the noon hour Friday to the  
home of Chester Wilson, 714 West La-  
fayette avenue, where the roof was on  
fire. The fire was quickly extin-  
guished. Sparks from the chimney  
were blamed with the blaze.

evening is the Rev. Edw. J. Haughton,  
rector of St. Paul's church, Spring-  
field.

The rector will not be present as he  
is to preach at Pittsfield at 4:00 p. m.  
He therefore asks that every one make  
an extra effort to be present to hear  
Fr. Haughton.

March 18th, Friday:  
12:00 noon—Litany.

There is just one more week left be-  
fore we hold our Parish Mission and  
in that time let all of us make the  
mission the object of our special pray-  
ers and also make the necessary ar-  
rangements to be present at all the  
services. That is every evening at  
7:30 and as many of the daily cele-  
brations of the Holy Eucharist as pos-  
sible.

Democratic Rally, Monday,  
12:30 p. m. in Court House.  
Hon. Bruce Campbell and other  
prominent Democrats.

ation by every member being in his  
place on time and also bringing a  
friend with you. Everybody welcome;  
everybody come; everybody on time.

Regular preaching services at the  
Mt. Zion church Sunday morning at  
9:30 a. m. This service will begin on  
time to allow the pastor time to fill  
his engagement at Grace Chapel at  
11:00 a. m. Every member should do  
their utmost to be present at this  
service; still better, bring the entire  
family. Special singing and a time-  
ly message. Everybody in the com-  
munity is welcome.

The Lord willing, we expect to begin  
the service at Grace Chapel at 11:00  
a. m. We trust that every member  
shall make a special effort to be in  
their place. This invitation is also  
extended to others in the community  
who do not attend elsewhere. Come  
and make this service a blessing to all.

There's a blessing in it for you if you'll  
only come laying aside all prejudice,  
and come with an open mind ready to  
receive the things of God. Special mu-  
sic and message.

Regular preaching service Sunday  
night at the Concord M. P. church at  
7:30 p. m. As usual, this service will  
begin with a rousing, soul-stirring  
song service of old time gospel hymns  
led by the pastor assisted by the  
church choir and Cornelius Keur, Jr.  
at the piano. We hope to have some  
special music by some of the children  
belonging to the children's chorus of  
Concord. Don't miss this. The pastor  
will continue the series sermons on  
"Thinking With God About Creation."

We should know more about the  
things of God to keep us from being  
swept away by the things of the  
world. We again say: every member  
on the job. A hearty welcome to  
everybody.

## Knights Of Columbus Here Will Celebrate Anniversary March 29

Tuesday, March 29, will be a red-letter day among local Knights of Columbus. On this day the opening celebration in honor of the 50th or golden anniversary of the founding of the order will be celebrated.

All local councils of the Knights of Columbus in the United States and its possessions will join in a national broadcast in which Supreme Knight Martin H. Carmody of New Haven, Conn., will open the program. It will be broadcast on a nation wide hookup of the National Broadcasting System. This will come on the air at 10:30 Tuesday evening.

Jacksonville council under the leadership of Grand Knight E. F. Rempe is preparing to take an active part in this celebration.

The following committees have been appointed by Mr. Rempe:

W. D. Kennedy, General Chairman. Arrangement—A. W. Becker, chairman; J. C. Walsh, John Doyle, Paul Conroy, Dr. H. M. Knight.

Refreshments and Entertainment—Lohman Wagner, chairman; Ernie McNeil, E. S. Sauer, Fred Cain, Carl Hamilton, Fred Cain.

Reception—Tom Duffner, chairman; J. W. Merrigan, James Magner, Leo Flood, J. V. Kennedy.

**Plan Big Home Coming**

The local participation will be in the nature of a home coming meeting in which local and out of town degrees members of the council, together with knights who belong to other councils and live in this vicinity, will be invited. It is expected to open the program early in the evening around 7:30 in which the knights will be entertained by the local council and at 10:30 they will hook up with the national broadcast to hear the supreme knight and the program of the national council.

Fifty years ago this year the Knights of Columbus was organized in New Haven, Conn., by Father McGivney and in the years of its existence it has grown to be one of the outstanding fraternal and insurance orders of the United States. To properly celebrate this fiftieth anniversary all councils throughout the country are putting on special programs and events throughout the year.

### Will Initiate Class

The local council has made some elaborate plans to take part in this golden jubilee. The first outstanding event of the year will be the initiation of a large class of candidates about the middle of April. Already the membership drive is on with Lohman Wagner as chairman assisted by the following committee: Thomas Duffner, first vice chairman; Edward Leonard, second vice chairman; Philip Hohnman, Francis Kaiser, Carl Kaiser, Alexander Wm. Kenny, Franklin; J. V. Kennedy, W. D. Kennedy, Earnest May, Roy Welch, Harold Welch, Carl Hamilton, Joseph Thompson, Joseph Hosp, A. W. Becker, L. J. Flood, Wm. Shields, Geo. Ring, Fred Cain, Paul Conroy, Carl Graubner, Ray Harmon, Wm. Sauer, Thos. Coggriff, Harry Wacker, R. Sauer, Jacksonville.

### Expect 100 Candidates

It is expected that a class of 100 members will be taken in the order at this golden anniversary initiation. Applications of around 50 prospective members have already been secured by the committee. This initiation will be a whole day affair starting in the morning and closing in the evening with a banquet. Out of town degrees will be brought in to confer the degrees and a special program of addresses and musical numbers will feature the evening affair.

Two years ago Jacksonville council won the national trophy for having the largest increase in members of any council in this district, which comprised five states. Carl F. Hamilton was then grand knight, and he together with James B. Kennedy, the district deputy, were voted a free trip to Boston, Mass., to attend the national convention. At this convention these men were presented with a large bronze bust of Christopher Columbus by the national council.

It is expected that the increase in membership through this golden anniversary initiation will excel in size even the class that was taken in the order two years ago.

## DEAF CHILDREN SHOW ROTARIANS HOW THEY STUDY

Four pupils, members of the experimental class at the Illinois School for the Deaf, furnished a very interesting demonstration at the weekly luncheon of the Jacksonville Rotary club Friday.

Dan T. Cloud, managing officer at the institution and Miss Margaret Scyster, teacher of the class directed the pupils.

Mr. Cloud told the Rotarians something about the work that is being done with the experimental group, composed of children between the ages of 3 and 5, gathered from all sections of the state.

While the children giving the demonstration today were deaf, Miss Scyster conducted the demonstration "orally," thru lip-reading. The children seemed at all times to understand clearly the instructions given by their teacher, and carried out their parts quickly and cleverly.

President Charles Ator appointed a committee composed of Robert W. Woolston, Ray Gruney, John Hackett, Raymond Johnson and Otto Speth to make arrangements for the local club members to attend the District Conference to be held in Alton, May 16.

Dr. A. H. Doller, governor of this Rotary District, spoke to the members on membership. Following his address President Ator, appointed the following Rotarians to a special membership committee: Elmer Snyder, Harry Capps, Ray Gruney, Leon Hardin, Earl Spink, Walter DeSara and R. A. Gates.

Guests of the club Friday were: Fred Schofield, R. B. Oxley, Wallace Hemphrough, all of Jacksonville; F. W. Stephenson, Springfield, J. R. Hastings, Taylorville, and James Pearson, Kankakee.

### FUNERAL NOTICES

### Club Gives St. Patrick's Party This Evening

A St. Patrick's party will be given this evening at the home offices of the American Bankers Insurance Company by the Booster club of that organization. The party will open at eight o'clock and will feature dancing and cards. Music will be furnished by Clemens Dirksen's orchestra.

Several committees are in charge of decorations, entertainment and other details. Miss Fern Haigh is chairman of the entertainment committee, and Miss Maurita Doenges is in charge of decorations.

The club sponsors several entertainments each year. The last was given in January.

### Will Attend Concert In Springfield Tonight

Members of the Jacksonville Community Concert Association are looking forward to the program to be given by the Barre Little Symphony in Springfield this evening. The Springfield Concert Association is bringing this talented group of musicians to the capital city and admiring to its concert members of the local organization.

It is expected that several cars will make the trip to Springfield for the musical event tonight.

The concert will be held at 8:15 p. m. in the Elks Club auditorium.

### MEAT THIEVES VISIT FRANKLIN FARMERS

Charles N. Reeve, residing two miles south of Franklin, is minus his meat supply because of the visit of thieves to his smoke house. All of the hams and shoulders of the three hogs he butchered for his table were stolen. On the same night thieves stole about 23 hens from the home of Mrs. Sarah Lankford in the same neighborhood.

Charles White, also living near Franklin, reports the loss of two hams, two shoulders and four sides. The meat disappeared from his smokehouse.

## DISTRICT BOARD TEAMS OF 1932 STATE CONCLAVE

Announcement of the state convention of the Illinois Federation of Women's clubs to be held May 17 to 19 in Chicago was made at the meeting of the executive committee of the Federated clubs, conducted at the Corner Cupboard Tea Room in this city today. Mrs. A. W. Schimmel of Pittsfield, district president, has just returned from the state board session in Chicago March 8 and 9 and brought, among other reports, news of the coming Illinois conclave.

Headquarters for the convention will be located at Hotel Sherman, Chicago, and will draw two delegates from each federated club in the state, the president and one other. Each president is especially urged to be present. A tentative program for the three day meeting has been drawn up and includes as principal speakers, Hon. Lewis Boyd Springer, Jens Jensen, noted landscape gardener, Pres. Harry Woodburn Chase, University of Illinois, and Dr. Lena K. Sadler.

Mrs. Schimmel also conducted with the board members the program of work which has been outlined for the coming year. The motto of "sane living and wise spending" will be further carried out with all of its ramifications. In line with this is the support of President Hoover's anti-hoarding program and the activities of the Citizens Reconstruction Organization which has Frank Knox as chairman and works for the restoration of confidence and the placement of idle money in circulation. The sale of government bonds also comes under the projects of this committee. Mrs. Schimmel pointed out the stand which the federation takes toward these movements and explained how the local district can contribute.

A poetry contest which is being carried on in the twentieth district was described by Mrs. Schimmel who stated that all entries must be sent to Mrs. Josephine Barnett, Milton, Illinois, by March 15.

The board members were in session at the Corner Cupboard Tea Room at eleven o'clock Friday morning and followed a discussion with a luncheon at the noon hour. The business was resumed in the early afternoon. Those present were as follows: Mrs. A. W. Schimmel, Pittsfield; Mrs. H. H. Hudson, Pittsfield; Mrs. John R. Robertson, Jacksonville; Mrs. Abram Wehl, Jacksonville; Mrs. E. G. King, Athens; Mrs. R. C. Hiett, Greenville; Mrs. Herbert Capps, Jacksonville; Miss Vera Martin, Pittsfield; Mrs. A. L.

## TO STAGE FAIRY PLAY AT SCHOOL THIS AFTERNOON

A revival of the presentation of well known fairy plays which so won the favor of Jacksonville grade school children several years ago will be effected this afternoon in the playhouse of "Hansel and Gretel" adapted from Humperdink's Opera.

The Children's Play committee of the local branch, American Association of University Women will present a cast of local women at the high school auditorium at the hour of three o'clock. Free of charge to all pupils of grade school age in the city.

For a number of years the A. A. U. W. has as an annual project the presentation of a fairy play which would cause to live in the minds of the children the charm and beauty of these old tales. After four of the productions were given for large and enthusiastic audiences, the plan was dropped for a time and is only revived this year with "Hansel and Gretel." As was always the custom the grade school children are admitted free as it is for their enjoyment that the production is made. Any adults or older children who are particularly interested may attend by paying a small fee. The use of the high school auditorium has been granted through the courtesy of the Board of Education.

The play is given under the direction of Elson Barnes Norbury assisted by Phoebe Bassett and Louise Lewis. Helen Ayers Bullard serves as accompanist. The cast for "Hansel and Gretel" follows:

Characters—Margaret Perry, Gretel—Mata Armstrong, Father—Helen Dial, Mother—Rose Ranson, Witch—Miriam Russell, Sandman—Dorothy Jackson, Angels—Alice Agger, Helen Hackett, Dorothy Farrell.

Playmates and Gingerbread Children—Dorothy Jackson, Trissie Cloud, Irene Bradish, Frances Rantz, Ione Black, Emily Fay, Dorothy Hiatt.

Between the acts: Magic—Ned Donahoe.

### WIFE SEKS DIVORCE

Suit for divorce was filed in circuit court today by Mrs. Alpha Bynum court Friday by Mrs. Alpha Bynum in which she makes a charge of habitual drunkenness. Her attorney is Hugh Green.

The bill recites that the couple were married March 12, 1911 in Bowling Green, Mo., and lived together until March 27, 1930. The wife claims that her husband was strongly addicted to drink all during this period of time.

### AT BAPTIST CHURCH

Rev. J. R. Hastings discussed "What is the Unpardonable Sin" at the revival meeting at the First Baptist church last night. The discussion of the question proved to be quite interesting to the audience in attendance.

## LITERARY DIGEST PRINTS ARTICLE BY GEO. E. DOYING

Articles by George E. Doying, a member of the staff of the United States Daily at Washington, a former Jacksonville man, continue to appear in a number of the leading publications of the country. An article by Mr. Doying on "Taxing Electricity" is printed in the Literary Digest of March 5.

Mr. Doying is utilities editor of the United States Daily, and is David Lawrence's newspaper. He was formerly connected with the Illinois Utilities Commission.

His article, "Taxing Electricity" in the Literary Digest, follows:

One of the new forms of taxes seriously discussed in Washington is what Barron's Weekly calls "a tax on juice."

In other words, it is a consumption tax on the use of electricity.

One idea is to impose a tax on the actual consumption of energy, say one-fourth of a cent or one-half a cent per kilowatt hour.

More in favor is the idea of simply making a levy of 5 per cent on the monthly electric light and power bills. An expert of the Federal Trade Commission says in a brief prepared for the House Ways and Means Committee: "A tax of this nature will be as near as possible to all users of the energy on the same basis and take care of the divergent cost per kilowatt hour to the several classes of users, and raise a revenue of approximately \$107,000,000."

Criticism of this new tax proposal are discussed by George E. Doying in a Washington dispatch for the Consolidated Press.

"Objections have been made to the proposed tax on the ground that it would tend to retard development of the power industry, and would discriminate severely between manufacturing concerns producing their own electric power and those buying it."

"It is claimed also that it would upset the delicate competitive balance between steam, electric, and water power, and would divert much business from the power companies to privately installed generating plants in manufacturing establishments."

"Such a tax would increase by about 50 per cent the aggregate taxes now being paid by the electric utilities, whose tax bill in 1930 amounted to \$203,500,000, equalling 10.2 cents from each dollar of consumer revenue."

Other probable tax increases are faced by the electric utilities as a result of the pioneering of the states of South Carolina and Idaho in enacting last year a tax of one-half mill on each kilowatt hour of electricity generated within the state. In both cases federal district courts have sustained the tax, and the South Carolina law now is pending before the supreme court of the United States.

"If this tax is sustained by the supreme court, it will almost certainly be adopted by other states. In addition, a proposal already is pending in the South Carolina legislature to double the present half-mill levy. With practically all of the states seeking new methods of raising revenue and endeavoring to remove some of the direct taxes upon real estate, the utilities in many instances present themselves as a shining target."

## LOCAL CHESSERS PLAY MAIL GAME WITH OHIO CLUB

Members of the Jacksonville Chess club are playing a game by mail with a similar club at Zanesville, O. Each side makes a move every two weeks. Two games are in progress, in one of which the locals have the white men and in the other the black men.

The club will meet Saturday evening and if the latest moves by Zanesville have been received, the games will be set up and the next moves of the local club will be worked out. Every possibility of the game is figured by the players, who try out certain moves and then they endeavor to guess what Zanesville will do next. The players confer as to the best possible moves, and the judgment of several is sometimes necessary before the next play is decided and ready for mailing.

The chess club has maintained its organization throughout the winter, though the attendance has been small. It is hoped more will become interested in the game and join the club. A larger attendance and more games are desired.

### HOLD SERVICES FOR MRS. JAMES STEELMAN

White Hall, March 11.—Funeral services for Mrs. Elizabeth Emmeline Steelman, wife of James Steelman, who died Monday night at the home of her son, O. E. Steelman, of Winchester, were held at the Patterson Baptist church Thursday afternoon at 2 o'clock, conducted by Rev. J. O. Ralston, of White Hall, who was assisted by Rev. F. W. Wright of Winchester. Interment was in the White Hall cemetery.

Mrs. Steelman was 79 years old last November 20. She is survived by her husband, one son, O. S. Steelman, of Winchester, and one daughter, Mrs. Hayden Ralston, of White Hall. Also four brothers and three sisters, John Allen, Bee Creek, William Allen, Chicago, Jack Allen, Jacksonville, and Oscar Allen, of Wood River, Mrs. Julia Carriger and Mrs. Laura Arnold, of Patterson, and Mrs. Melissa Dunham, of Kankakee. There are seven grandchildren and seven great grandchildren.

**RECOVERS FROM ILLNESS**

Miss Anna Kiley has returned to her duties at the F. J. Waddell & Co. Store after an illness of several days.

## A CUPFUL OF HILLS BROS COFFEE PROVES THAT CONTROLLED ROASTING MAKES A FINER FLAVOR

As the accuracy of the hour-glass depends upon an even, continuous flow . . . so the uniform flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously . . . "a little at a time."

Perfect roasting by Hills Bros' patented process always develops the perfect flavor of the coffee-berries

Roasts "a little at a time" instead of in bulk

Instead of roasting in bulk, Hills Bros. use their patented Controlled Roasting process. The coffee flows evenly, continuously through the roasters . . . a little at a time. Every berry is done to the perfect degree. Naturally, a perfect roast results in perfect flavor!

Hills Bros. Coffee can't go stale! The vacuum process of packing coffee is the only method that fully preserves coffee freshness—the air is removed from the can and kept out. It was originated by Hills Bros. over thirty years ago. There is no magic about a vacuum can—it will not make poor coffee good, but it will keep good coffee fresh.

Order Hills Bros. Coffee by name, and look for the Arab trade-mark on the can.

No can of Hills Bros. Coffee will ever "go stale." The vacuum can keeps it FRESH ALWAYS!

JUST LOOK AT IT LATHER, MARY. THAT TELLS THE STORY. AND HOW IT DOES SOFTEN AND GET THE DIRT! I NEVER USED A SOAP THAT CLEANS SO EASILY.

## Oceans of lather, quick!

What an effort—trying to get clean with ordinary soaps! Even after you wash your hands—even after you bathe or shampoo your hair—a dirty, soapy film remains. Ordinary soaps will not remove that dirty film—especially if the water is the least bit hard! That's why thousands of families are turning to Kirk's Cocoa Hardwater Castile. Try it today—for hands, for bath, for a wonderful shampoo. You'll be amazed at the difference. Handfuls of foamy lather, instantly. Hard-working lather that quickly softens and loosens that grimy film. Quick-rinsing lather that washes it away completely, leaving skin and hair as fresh and clean as a spring morning. You can't get really clean in this hard water without it.

**Body odor vanishes like magic**

Made from 100% pure coconut oil, Kirk's Castile makes instant lather—even in water hard as the hardest—even in water cold as ice. And what a saving! Of the four leading toilet soaps Kirk's is half again larger, half again heavier. Yet the price is the same! There are many imitations, so be sure to ask for Kirk's by name.

**Largest Soap Makers in America**

**Quality at a Bargain 3 for 25c**

Even the costliest imported toilet soap couldn't give you more pure lather than you get from a large-size can of Kirk's Cocoa Castile. Mild and deep-cleansing, it lathers instantly, in hard or soft water, because it's made from

One of the cream puffs said, "Well, around this place, that I can stuff into my face. Oh, look up on the table, well. Oh, tell us, Mister Baker Man, who are these little boys? We're sure they've never been here before. Now, what have they walked in here for? We heard them when we jumped out and they made a lot of noise."

"They're friends of mine," the baker said. "Now, make a bow and drop your head. Whenever we have visitors you puffs must be polite. These are the Tinymites, you see, and they have called upon you. Gee, you should be glad that they have come. You'll soon find I am right."

One fat puff said, "Well, howdy dy! We're tickled that we're meeting you. Perhaps you'll help the baker pack us in a great big box. We'll soon be in a bakery store for folks to buy. That's what we're for." Then Duncy said, "Sure, I will help. I'm clever as a fox."

And so the Tinymites packed a while. It made the little cream puffs smile. "We never work," said one of them. "The work is up to you. Be sure and pack us in real tight. Then everything will be all right. The baker will be thankful for most anything you do."

This little job shortly was done. The Tinymites thought it heaps of fun. Then Duncy whispered to the rest, "I'm hungry as can be. There must be food around this place, that I can stuff into my face. ## The time-a-dance girl

BY JOAN CLAYTON

**BEGIN HERE TODAY**

ELLEN ROSSITER, beautiful 20-year-old, falls in love with LARRY HARKWORTH, young artist, whom she meets at Dreamland where she works as a dance hostess. Larry is engaged to ELLIE, a girl who is a fortune teller, but she shows Ellen attention, and he shows Ellen attention, until his fiancée returns from Europe.

From a sense of gratitude Ellen agrees to marry STEVEN BARCLAY, kind and wealthy man of 37 who has paid hospital expenses for her brother, MIKE, injured in a street accident. He finds a job for BERT ARMSTEAD, engaged to Ellen's sister, Myra.

Bert has been married and divorced. Scandal accompanied his divorce from LENA GRAYSON, dancer, and the talk of the divorce may be revived, he and Ellen agree to keep their marriage secret. Myra and Bert are to be married the same day as Ellen and Barclay.
